What the tribunal ordered

37 decisions in this search (31 ended in a rent repayment order). In 31 the amount ordered has been checked; the figures below come from those, and n is the number of decisions behind each figure. Amounts are the total ordered in a decision, across all its applicants; "per applicant" divides by the number of applicants.

	All	Before 5 Sep 2022	Since 5 Sep 2022
Ended in a rent repayment order	89% (31 of 35)	90% (19 of 21)	86% (12 of 14)
Typical amount ordered, per applicant	£4,056 (n=20)	£6,110 (n=8)	£3,792 (n=12)
Typical amount ordered, per decision	£7,265 (n=31, typically 2 applicants)	£8,323 (n=19, typically 2 applicants)	£6,718 (n=12, typically 2 applicants)
Typical share of the maximum the tribunal could award	70% (n=17)	100% (n=9)	57% (n=8)

No decision here yet concerns an offence on or after 1 May 2026, when the maximum rose to 24 months' rent. Every figure is under the old rules, where the maximum was 12 months' rent.
"Per applicant" divides what the tribunal ordered in a decision by the number of applicants in it; "per decision" is the total ordered across all of them, as the decision states it.
"Typical" is the median. n is the number of decisions each figure comes from. Figures from fewer than 5 decisions are shown as "too few".
The Upper Tribunal set out how the amount is fixed in Acheampong v Roman on 5 September 2022.

The tribunal can only make an order if it is sure, beyond reasonable doubt, that the landlord committed the offence. **Old rules**: offence before 1 May 2026, maximum 12 months' rent. **New rules**: offence on or after 1 May 2026, maximum 24 months' rent.

Past decisions are not a prediction. The tribunal decides each case on its facts, including the landlord's and tenant's conduct.

Decisions that ended in an order

Most recent first. Rent per calendar month, the maximum the tribunal could award (the rent for the period, less any benefits), the amount ordered and its share of that maximum, as the decision states them. A blank maximum means the decision never states it as one figure, or it hasn't been checked.
